

FACT SHEET

AerCap Engines is the premier engine lessor, with the largest and most diverse pool of spare engines. AerCap Engines can tailor the best solution to suit your needs supporting airlines, MROs and investors. With over twenty years of experience and an array of trusted and innovative solutions ranging from engine purchase and financing, long-term or short-term engine lease, debt, engine exchange or servicing, AerCap Engines has the experience, expertise and solutions tailored to meet your needs. With our global team, deep domain expertise, customer engagement and engine availability across multiple locations, AerCap Engines delivers the highest quality products with unrivalled responsiveness.

Products & Services

- **Short-Term Rental** provides short-term leases to cover immediate airline spare engine needs primarily driven by unplanned maintenance events.
- **Operating Leases** - Extensive experience tailoring operating leases to meet customer needs that provides operational availability and cashflow preservation, and avoids residual risks.
- **Financing Flexibility** offers engine sale & leaseback as well as tailored, structured long-term financing.
- **Engine Exchange & Substitution** - The experts at AerCap Engines can work with you to trade-in your runout engine for a ready to install engine. We can devise a tailored solution to meet your individual needs.
- **Servicing** can provide investors with asset management and marketing services ranging from origination to disposition, remarketing, technical, legal, on lease management and servicer reporting. We currently service 200+ assets for 5+ investor entities.
- **Shannon Engine Support (SES)** - 50:50 Joint venture between AerCap and Safran, providing dedicated CFM spare engine support offerings.
